

# HydroBlast.

Hydroblast is a premium sealed unit goggle offering vital protection from liquid and molten splash, dust particles and other airborne debris. Anti-Fog treatment prevents mist and condensation making this an essential piece of safeguarding equipment for your eyes in an industrial environment.

- Sealed unit goggle for reliable protection
- Anti-Fog treated to prevent misting
- Indirect venting system allows for skin breathability
- Protects from dust particles and liquid splash
- Wide coverage for unrestricted vision
- Soft and secure TPR face seal
- 7 Point ratchet adjustable temples for positioning and optimum fit
- Lightweight and extremely comfortable
